

Harvest Mobile

Technology that helps you harvest with confidence

Harvest Mobile

MONITOR performance as you harvest, in the cab or wherever you are.

- Visually track progress with **Map Layers** that show ground speed, moisture, and wet and dry yield.
- Use **Run Time Monitor** to confirm your equipment is set for optimum performance.
- See all this information away from the cab through **Job Monitor** in the John Deere Operations Center.

ADJUST your combine's settings simply and quickly, to optimize performance as conditions change.

- Easily adapt to changing field conditions through **Interactive Combine Adjustment**, which offers step-by-step guidance to the operator in the cab.

LEARN from insights from this job and field to improve future performance.

- Use **Field Review** to see data collected from harvest in the form of maps that highlight areas for investigation.
