

JOHN DEERE OPERATIONS CENTER

John Deere Operations Center and the connected mobile apps are a set of online tools that allow you to access your farm information from anywhere.

These tools provide you with the ability to:

- ▶ SEE what is happening on your farm while learning from your performance over time.

- ▶ COLLABORATE with the right people and tools to make decisions that save time, optimize yield, and maximize profits.

- ▶ DIRECT your operations by turning your plans into action, easily adjusting as conditions change.

Operations Center offers
one solution for machine & data

JOHN DEERE
**OPERATIONS
CENTER**

Data from FieldView or other non-Deere apps can be imported to Operations Center – Ask for details!
