

High-Torque Feederhouse Drive

Part Number

BH84447.....

Model(s)

9660, 9760, and 9860 (705000 -) STS

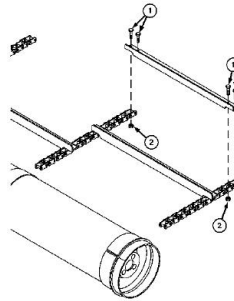

Installation Time:

11.5 Hours

Product Information:

The high-torque, variable-speed feederhouse drive is stronger and more durable. It is ideal for any STS combine operating in high-yield corn at fast ground speeds. Must be equipped with a heavy-duty variable-speed feederhouse drive system.
